American Water Company, Inc.  
Docket # W-01303A & SW-01303A-09-0343  
Rate Consolidation and Increase

→ ATTN: Kristen Mayes, Chairperson

Dear Kristen:

I am writing our (my husband, Gordon Marshall) and my adamant opposition to the consolidation of the various districts by Arizona-American Water Co. to averaging the costs of the various districts – to the detriment of Sun City which has some of the best water in the state. As a result of this proposed consolidation, Sun City would be hurt as it would have to pay for other districts' water while we do not have to pay to treat the water in our own district.

The Arizona-America Water Company desires a permanent revenue increase for Sun City water and waste water. The application requests increases of 27.7% in water and 40.8% in waste water. Not only will we be responsible for these raises – we will also be affected by the increase to RCSC, which will have to be passed on in annual property assessments.

The Arizona – American Water Company desires a permanent revenue increase for Sun City water and waste water. The application requests increases of 27.7% in water and 40.8% in waste water. Not only will we be responsible for these raises – we will also be affected by the increase to RCSC which will have to be passed on in annual property assessments.

A short time ago, the ACC awarded APS a 10% plus increase which will raise RCSC's electrical costs significantly (and ours as a result).

With these increases in sight, coupled with the faltering economy, it will be impossible to make ends meet. We have increases in various areas (over and above the obvious) – food, clothing, insurances (both health and life) utilities, doctor and hospital charges. As a result, we submit that these proposed raises are far too high to be in the well-being of Sun City Residents.

These changes should not be approved. Everyone is having to live on a stringent budget as it is!

Sincerely,

A handwritten signature in cursive script that reads "Joan & Gordon Marshall".
